V-JET 6040

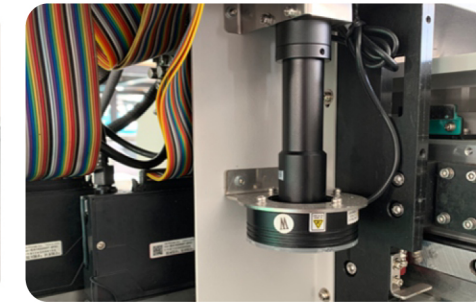

Spot Varnish Printing with CCD Positioning

For spot varnish printing as post treatment to enhance effect, easy, fast and accurate

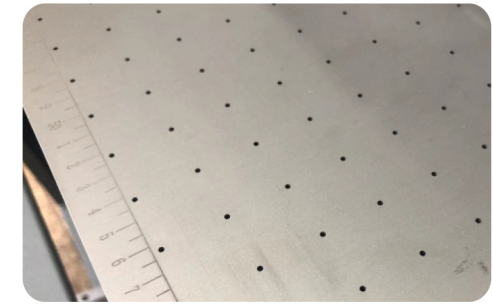

V-JET 6040

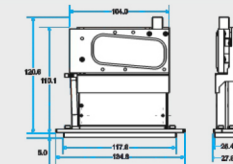

Industrial level printhead

CCD positioning system

Vacuum Flatbed

Industrial printhead SPT1024GS, print width of 72mm ensures productivity; variable droplets from 7pl to 42pl generates smooth printing on gradient.

1H

2H

4H

- CCD positioning system with high definition camera to register automatically.
- Digital spot varnish printer, no screens required.

Technical Specifications

Model	V-JET 6040	
Printhead	SPT 1024GS	
Print width	400mm x 600mm	
Printhead configuration	1H /2H	
Print Speed*	1H	Upto 65 A3 Sheets Per Hour
	2H	Upto 90 A3 Sheets Per Hour

Weight & Thickness: < 50KG & < 10CM

Type: Printings with requirements of varnish enhancement

Ink: Professional varnish printing

Curing method: Water-cooling LED Lamps

Positioning system: High-speed industrial camera

Print Interface : Standard Category 5 network cable

Printer : AC220V 50HZ 300W

Print Platform Vacuum Hold Down Area : AC220V 50HZ 1500W

Operation Environment : Temperature: 20°C-28°C Humidity: 40%-60%

Printer Dimensions : L1897mm×W1065mm×H1216mm

Note: There may difference in parameters due to various reasons, please refer to the real printing.
